CAREER OBJECTIVE

As a Computer Science graduate with specialized training in software development, web application development, and freelancing, I am eager to build a career in Full-Stack Development, Artificial Intelligence, and Large Language Models (LLMs). With a strong foundation in C, C++, C#, .NET, Python, and JavaScript, and hands-on experience in Django, REST APIs, GitHub, and modern web design, I aim to contribute to scalable software solutions, intelligent systems, and innovative applications. My long-term goal is to advance expertise in full-stack engineering and AI, while driving meaningful and sustainable growth within forward-thinking organizations.
